CRL Conditional Retro-Leverage

Non-Binding Letter of Intent • Template for Discussion

PUBLIC SAMPLE TEMPLATE. FOR DISCUSSION PURPOSES ONLY.
This document is a public sample template intended to illustrate the expected structure of a non-binding Letter of Intent for a potential CRL White-Label API integration. It is not an offer, creates no obligation to enter into any transaction, and should not be treated as legal advice. Confidentiality obligations apply only once this document is completed, exchanged between identified parties, or executed, or where a separate non-disclosure agreement has been signed. Execution subject to definitive agreements. Consult qualified legal counsel.

NON-BINDING LETTER OF INTENT

CRL White-Label API Integration

Date: [_____]

Between:

CRL Technologies Inc., a Delaware corporation ("CRL" or "Technology Provider")

and

[**BROKER LEGAL NAME**], a [jurisdiction] entity ("Partner" or "Licensee")

1. Purpose

This Letter of Intent ("LOI") sets forth the mutual interest of the Parties to explore a commercial partnership whereby CRL would provide its proprietary Conditional Retro-Leverage ("CRL") technology to Partner under a white-label API integration model.

CRL technology is designed around a single property: leverage does not amplify exposures that the market has not confirmed. The associated mechanism, comprising conditional trigger detection and retroactive recalculation, is the means by which this property is realized.

This LOI is **non-binding** except for Sections 6 (Confidentiality) and 8 (Governing Law), which shall survive regardless of whether definitive agreements are executed.

2. Scope of Integration

2.1 Technology Provided

CRL will provide Partner with access to its White-Label API as a **calculation layer** for CRL-enhanced derivative products, including real-time trigger detection, retroactive leverage computation, event logic, and audit logging.

For the avoidance of doubt: CRL does not execute orders, clear trades, hold client funds, or provide investment advice. Partner remains the sole counterparty, issuer, and distributor of any products incorporating CRL technology.

2.2 Professional Clients Only

IMPORTANT: CRL products are designed exclusively for distribution to **MiFID II Professional Clients and Eligible Counterparties** (or equivalent classification under applicable jurisdiction). Partner confirms it will not offer CRL-powered products to retail clients.

2.3 Regulatory Responsibility

CRL provides technology infrastructure only. Partner retains full responsibility for regulatory compliance, client suitability, product distribution, KYC/AML, and all applicable regulatory filings in its operating jurisdictions.

3. Preliminary Commercial Terms

The following commercial terms are indicative only and subject to negotiation. Specific figures are shared following an initial discovery call.

Commercial terms may include an integration fee, usage-based fees and/or revenue sharing, to be agreed based on integration scope, jurisdiction, expected volume and product configuration.

Technical integration typically runs from sandbox to API-ready in approximately two weeks. Production go-live generally follows within four to eight weeks, subject to the Partner's internal approvals. The initial term is typically twelve months, auto-renewing with ninety (90) days' notice.

4. Intellectual Property

Conditional Retroactive Leverage™ is a trademark of CRL Technologies Inc.; the CRL engine and its documentation are protected by copyright. Partner acknowledges that all intellectual property rights in the CRL system, algorithms, and methodologies remain exclusively with CRL Technologies Inc.

Definitive agreements will include standard intellectual property protection clauses. Details regarding anti-reverse engineering provisions will be provided upon execution of a mutual NDA. No technical documentation, sandbox credentials, API keys, implementation details or other non-public materials shall be provided before execution of a mutual non-disclosure agreement.

5. Next Steps

Upon execution of this LOI, the Parties agree to proceed with:

(a) Execution of Mutual Non-Disclosure Agreement

(b) Technical discovery call and sandbox access

(c) Negotiation of definitive Term Sheet

(d) Execution of Master Integration Agreement

6. Confidentiality (BINDING)

The confidentiality obligations in this Section apply only once this document has been completed and exchanged between identified parties, or executed, or where a separate non-disclosure agreement has been signed. They do not attach to this public sample template in its blank form. Once such obligations arise, each Party agrees to maintain in confidence all non-public information disclosed by the other Party in connection with this LOI and the proposed partnership, and this obligation shall survive for a period of two (2) years from the date the obligation first arises, regardless of whether definitive agreements are executed.

Exceptions: This obligation does not apply to information that: (a) is or becomes publicly available through no fault of the receiving Party; (b) was already known to the receiving Party prior to disclosure; (c) is independently developed without use of confidential information; or (d) is required to be disclosed by law, regulation, or court order (with prompt notice to the disclosing Party where permitted).

Each Party may disclose confidential information to its directors, officers, employees, and professional advisers who have a need to know, provided such recipients are bound by confidentiality obligations no less protective than those contained herein.

Neither Party shall disclose the existence or terms of this LOI without prior written consent, except as required by law or regulation.

7. Non-Binding Nature

Except for Sections 6 and 8, this LOI is an expression of mutual interest only and does not create any binding obligation on either Party to enter into any definitive agreement or to consummate any transaction.

Either Party may terminate discussions at any time without liability, except for obligations arising under Section 6.

8. Governing Law (BINDING)

This LOI (and its binding provisions) shall be governed by and construed in accordance with the laws of the State of Delaware, United States, without regard to its conflict of laws principles.

The governing law of the definitive agreements shall be mutually agreed by the Parties; if no agreement is reached, the laws of the State of Delaware shall apply by default.

9. Validity

This LOI shall remain open for acceptance for a period of **thirty (30) days** from the date first written above, after which it shall expire unless extended in writing by CRL.
